CONTEXTUAL APPLICATION

PRODUCTS SPECIFICATIONS

Tabletop

Size: 1200W × 600D × 25H mm

Panel: Made of E0-grade particleboard / MFC with a double-sided decorative finish. The material has a uniform structure and a formaldehyde emission level of ≤ 0.4 mg/L.

Edge treatment: Four corners with R30 rounded corners. All four edges are beveled and finished with seamless clear-coat sealing, providing an attractive appearance and improved safety.

Chair Back

Features an ergonomic design based on bionic principles and mechanics, with a smooth, continuous curve that follows the natural shape of the human back. The PP + 30% glass-fiber reinforced plastic material provides strength and stability while maintaining good flexibility and elasticity.

Dimensions: 450W × 440D × 410H mm (±2 mm). The lower section of the backrest includes ventilation holes for improved comfort and heat dissipation. The backrest is adjustable forward and backward.

Table Frame

Main frame: Ø60 mm cold-rolled galvanized round steel tube, 1.5 mm thickness.

Upper support frame: 50 × 25 mm rectangular steel tube, 1.5 mm thickness.

Surface finish: Powder-coated.

Feet: Nylon leveling glides at the lower ends for floor protection and height adjustment.

Tabletop connection: Four independent Ø64 × 150 mm ABS plastic feet, adjustable in height.

Legs: Fitted with Ø150 mm anti-slip plastic pads, height adjustable.

Frame construction: Connected using special fittings with a cross-joint structure and 30 × 50 mm cold-rolled rectangular steel tube, 1.8 mm thickness, joined by precision welding. This structure effectively enhances load-bearing capacity and overall stability.

COMBINATION

ARC1 - 1200Wx600Dx750H

ARC2 - 1200Wx700Dx750H

ARC3 - 1400Wx700Dx750H
