VALTOR

VALTOR combines distinctive styling with practical functionality, offering a versatile seating solution designed for modern healthcare spaces. Its sculpted form and integrated support create a welcoming, professional presence, while its durable construction meets the demands of high-traffic environments. Ideal for patient waiting areas, consultation rooms, and healthcare interiors.

ONE CHAIR FOR MULTIPLE SCENARIOS

Designed for modern healthcare environments, this versatile seating collection combines comfort, durability, and easy maintenance. With multiple configurations and mobility options, it adapts to hospitals, clinics, and patient waiting areas.

“ Designed for Care Built for Healthcare ”

ONE-PIECE CONTOURED BACKREST

One-piece molded PP backrest with a contoured design for comfortable support. Its seamless construction reduces joints and simplifies routine cleaning.

“ Integrated Design everyday Support ”

WIDE SUPPORTIVE SEAT CUSHION

High-density molded foam cushion (450 × 525 mm)
Designed to provide comfortable support in healthcare waiting areas, consultation rooms, and staff facilities.

“ Comfort for Everyday Healthcare Use ”
